

Bootstrap Shortcodes For Dazzling WordPress Theme

Below listed shortcodes are powered by Easy Bootstrap Shortcode plugin. To find out more about this plugin and download it please visit WordPress plugin repository (<https://wordpress.org/plugins/easy-bootstrap-shortcodes/>). We have made examples for all shortcode types but you can combine them, tweak them, add custom classes and much more. It is among the most powerful Bootstrap plugins to manage shortcodes and we highly recommend it for Dazzling (<https://colorlib.com/wp/themes/dazzling/>) and our other Bootstrap based themes (<https://colorlib.com/wp/themes/>).

It is known issue when using Easy Bootstrap Shortcodes with Dazzling theme that's why we have mentioned that in our theme documentation. We have also included information (<https://colorlib.com/wp/support/dazzling/>) how you can configure this plugin properly to make it work with Dazzling theme.

Hi Aigars. I'm using Dazzling theme, but how to change the length of a table cell using bootstrap? In wordpress the table html is displayed like following:

```
[table_body]
[table_row]
[row_column]ADD TEXT[/row_column]
[/table_row]
[/table_body]
```

Reply (<https://colorlib.com/dazzling/dazzling-shortcodes/?replytocom=1819#respond>)

Thanks for make this awesome themes free.

I would like ask how to make the blog title on center of the nav bar? I search tutorial for this through google, but I didn't found it.

thank's for attention

Retter,

Thank you for reporting it! I had this plugin disabled while I was testing other things and forgot to enable it. Now everything should work just fine.

Reply (<https://colorlib.com/dazzling/dazzling-shortcodes/?replytocom=1716#respond>)

Aigars, you're wrong. Even when configured properly the top menu dropdowns stop working. I'm happy to let you take a look at my setup at naturalblacksalve.com if you like.

Reply (<https://colorlib.com/dazzling/dazzling-shortcodes/?replytocom=1794#respond>)

Aigars (<https://colorlib.com/>) says:

April 29, 2015 at 8:33 pm (<https://colorlib.com/dazzling/dazzling-shortcodes/#comment-1799>)

Dropdowns are working perfectly fine on your website. Probably you still see cached version of your website, so make sure to clean your browser cache and try again.

Reply (<https://colorlib.com/dazzling/dazzling-shortcodes/?replytocom=1799#respond>)

Aigars (<https://colorlib.com/>) says:

April 29, 2015 at 8:30 pm (<https://colorlib.com/dazzling/dazzling-shortcodes/#comment-1798>)

Yes, you can use Bootstrap markup without using this plugin. It is just slightly easier to use plugin that write your own code. Not for me but at least for most users.

Reply (<https://colorlib.com/dazzling/dazzling-shortcodes/?replytocom=1798#respond>)

May 9, 2015 at 9:53 pm (<https://colorlib.com/dazzling/dazzling-shortcodes/#comment-1807>)

I can't figure out how to activate the full screen slider. I want it to show up on a static home page for a business client. The documentation for this theme only confuses me. Where do we add the graphics? The only size guidance I can see is for 300×88 pixels, which is WAY too small for a full screen image. I would love to make my client's website have sliders and embedded text as you have in this demo.

Reply (<https://colorlib.com/dazzling/dazzling-shortcodes/?replytocom=1807#respond>)

cyroq says:

July 27, 2015 at 12:29 pm (<https://colorlib.com/dazzling/dazzling-shortcodes/#comment-1876>)

Custom Post Types don't seem to get picked up by the slider (even when they are assigned to the same category as posts and they contain a featured image). How can I use custom post types in the slider?

Reply (<https://colorlib.com/dazzling/dazzling-shortcodes/?replytocom=1876#respond>)
