Markup: Text Alignment

This is a paragraph. It should not have any alignment of any kind. It should just flow like you would normally expect. Nothing fancy. Just straight up text, free flowing, with love.

Template: Sticky

📅 January 7, 2014   👤 themedemos   🗁 Uncategorized   ✎ Edit

This is a sticky post. There are a few things to verify: The sticky post should be distinctly recognizable in some way in comparison to normal posts. You can style the .sticky class if you are using the post_class() function to generate your post classes, which is a best practice. They should show at the very top [...]

#About Dazzling WordPress Theme#

Dazzling is a clean, modern, minimal and fully responsive flat design WordPress WooCommerce theme well suited for blogs, static and ecommerce websites. Theme can be used for travel, corporate, portfolio, photography, green thinking, nature, health, personal and any other creative and minimalistic style website. Dazzling theme is highly customizable with unlimited color options, slider, call for action button, several widget areas and much more that can be adjusted via Theme Options. The theme is built using Bootstrap 3, which makes it responsive and mobile friendly. It features infinite scroll, SEO friendly structure, logo upload, full-screen slider, call for action section, social media icons, popular post widget and translation ready setup. This theme supports WooCommerce and Jigoshop ecommerce plugins. Dazzling is also available in Mexican Spanish, Brazilian Portuguese, Finnish, Swedish, Dutch, Hungarian, German, Persian, Lithuanian, Portuguese, Danish, Turkish and Polish. It is Multilingual ready and compatible with WPML plugin. It is probably the best free WordPress theme built for eStores and business websites.

For questions, comments or bug reports, visit Colorlib support forum.

#Installation#

You can install the theme through the WordPress installer under "Themes" > "Install themes" by searching for "Dazzling".

Alternatively you can download archive file, unzip it and move the unzipped contents to the "wp-content/themes" folder of your WordPress installation. You will then be able to activate the theme.

Afterwards you can continue theme setup and customization via WordPress Dashboard - Appearance - Theme Options. For detailed theme documentation, please see here.
